

# EUROPEAN LEARNING SPACE ON EARLY SCHOOL LEAVING

**Early school leaving (ESL)** results from a combination of personal, social, economic, educational and family-related factors that have severe consequences to economy and society. European countries must initiate possible solutions to combat ESL at policy level, but there is a desperate need for practical help also at the local and school levels.

The **Learning Space on ESL** offers a wealth of high-quality content and expertise that has been accumulated on early school leaving at the international, national, local, and institutional levels. Visitors can find the most up-to-date information and the latest resources on ESL. The linked and interactive functions support a deeper understanding of the broader context of the problem. Advanced users can share their knowledge, experiences and join the professional network community.

## WHAT ARE THE RESOURCES OFFERED?

### GOOD PRACTICE REPOSITORY

A structured database of good practices to identify and manage students at risk. Download good practices and share your own.

### INTERACTIVE STATISTICS

A structured and comparable ESL-related country data collection with an interactive visualization for researchers and policy makers.

### GLOSSARY

A collection of definitions and background information on ESL that will be linked to professional materials and to the explanations of the contextual factors.

### ESL EXPERTS' ROOM

Find, connect and work together with experts. Experts have the possibility to upload their expert profile to a searchable database.

### MY STORIES

Short videos about colourful and true stories of students and teachers to bring the problem closer and prepare emotionally for exploring real solutions.

## JOIN THE LEARNING SPACE

We invite experts and professionals to join us and build the learning space together. It will be available by November 2017. If you are interested, please contact us by e-mail.
